
BEERA TECHNOLOGIES AFRICA

"Building The Future Digital"

Digital Solutions & Technology Services Price Guide

At Beera Technologies Africa, we don't just build websites — we create digital ecosystems. Whether you are a startup testing the waters, a growing SME scaling operations, or a large corporation seeking robust digital transformation, we provide practical, reliable technology solutions that work for the African market.

All prices are quoted in Ugandan Shillings (UGX). The bracketed USD figures are indicative only, converted at an approximate rate of **UGX 3,700 = US\$1** (mid-market rate, June 2026). Actual USD value will vary with exchange rate movements at the time of invoicing — official billing is always in UGX.

1. WEBSITE DEVELOPMENT SERVICES

Starter Website Package

From UGX 800,000 (\$216)
